

NEW LOW MARK SET HERE TODAY

Weather Man is Very Frank About it, Too, Saying There Will be no Change in Temperature.

HOLDS OUT NO FALSE HOPES

Twelve Degrees Below Zero is Lowest Recorded Here Today—Much Hardship is Caused.

The weather man said yesterday that it would not be "quite so cold today." This morning the minimum temperature was on the average of six degrees colder than yesterday morning's minimum. Today the weather man was perfectly frank about it and said that there would be "no change in temperature."

It is a sorrowful thing to say, but it appears that the weather forecaster is not holding out any false hopes for the future today. The mercury showed no more disposition to rise at the beak of a warm sun today than it did yesterday.

At noon in the business district the maximum temperature of all thermometers was twelve degrees above zero. Other thermometers revealed a temperature as low as seven degrees above zero. One thermometer which was exposed to the sun's rays for several hours today did not register higher than seven degrees above zero.

The lowest temperature reported this morning from any source was twelve degrees below zero. This is said to be the lowest temperature recorded in Indiana during December in many years. Temperatures reported ranged from eight to twelve degrees below zero.

The extreme cold wather, coming as suddenly as it did, has caused much hardship among the poor people of the city. The Salvation Army has had a number of calls for help and other charity workers have found considerable suffering.

The Indianapolis & Cincinnati Traction company was caused some inconvenience by the sudden change in temperature. Last night the trolley wire broken at a point about half way between here and Arlington. It was reported at the I. & C. offices that there was almost a mile of wire down. No cars had been operated between here and Indianapolis up to one o'clock and it could not be announced just when traffic would be resumed. Cars are running between here and Connersville, however. The car leaving Indianapolis last night at 11:30 o'clock and due here at 12:50 was stranded at Arlington and the passengers had to spend the night there. Dr. V. W. Tevis and Dr. P. H. Chadwick were the only persons here on the car.

Temperature from other cities in Indiana indicate that the zero weather is holding the boards all over Indiana. The lowest temperature in the state was registered at Columbus this morning. There the mercury went down to sixteen degrees below zero in the government thermometer. The low mark for the day at Indianapolis was seven degrees below registered at seven o'clock this morning. At Bloomington the low mark was eleven and a half degrees, at Seymour twelve and Newcastle ten.

Farmers here today say that the country is frozen up from one end to the other. There is nothing much that farmers can do except care for stock. That is about all most of them are pretending to do. Most of them have all their corn cribbed and

BURGLAR FRIGHTENED AWAY

Believed to Have Tried to Gain Entrance at S. L. Newhouse's.

There was a burglar scare at the home of Mr. and Mrs. S. L. Newhouse, 801 North Jackson street, last night. After the family had retired one of the girls thought she heard some one attempting to unlock the front door with a key. By the time the family had been aroused and a weapon procured, however, no trace of an intruder could be found. A sister of the girl who was awakened declares that she saw a man run across the street so that members of the family are about convinced some one did try to enter their house.

CAR OF FLOUR WILL BE SENT TOMORROW

Orders Received Today to Ship Belgian Relief Donation and Loading is Started.

CAR WILL HOLD 1,000 SACKS

C. G. Clark & Sons today received orders to ship the car load of flour, most of which was donated by the people of Rushville and vicinity. The thousand 49-pound bags, which comprise a car, were made last week and the Rush County mills have held them in readiness for the word from the Northwestern Miller, a trade journal published at Minneapolis, Minn., as to when the shipment should be made. A similar fund was instituted in cities all over the United States by the trade journal. The Northwestern Miller arranged for free transportation on all railroads in the United States in Canada and agreed to pay the sea freight, which was arranged at a reduced rate. Millers all over the United States were importuned to put the question up to their local newspapers, the millers agreeing in turn to manufacture the flour at cost if the people would contribute the necessary funds. A car was put on the siding at the Rush county mills last night to be loaded with corn, but when shipping orders came this morning, it was decided to load the flour right into that car.

TO FEED MANY CHRISTMAS

Salvation Army Workers Are Canvassing City For Donations.

Although Captain C. A. Sparks, of the Salvation Army corps here, is handicapped by the serious illness of his wife, who will undergo an operation in the Long hospital in Indianapolis tomorrow, he is expecting the Salvation Army this year to serve as many Christmas dinners as usual. Mrs. Frank Gipson is canvassing the resident district for subscriptions of any sort to make the dinner a success. While she is not receiving much cash, many donations of fruit and other things for a Christmas dinner are being given.

ELECTED VICE-PRESIDENT.

Frank Loftus, of the Indianapolis & Cincinnati Traction company, was elected first vice president of the Central Railway Accounts' association at the semi-annual meeting in Dayton, O., last Saturday. This puts him in line for the presidency. The next meeting will be held in Indianapolis next June.

GOOD FELLOWS LEAGUE HAS LIST

Joiners Who Have Been Asking For Names May be Supplied With Children Now.

SOME LITTLE FOLKS HELP

Rushville Woman Braves Zero Weather All Day Monday to Investigate Several Cases.

The Good Fellows are coming to bat in great fashion, but there is still room for a number of others. Several Good Fellows came to the Daily Republican office yesterday evening to get names of some little folks who will need help Christmas, but the Good Fellows League just at that time was out of names.

Today, however, the League is well supplied because one fine-hearted woman, a charity worker who has done such things before, braved the zero weather yesterday from eight o'clock in the morning until three o'clock in the afternoon in order to investigate cases in a certain district of the city.

The list was sent to the office today and all of those Good Fellows who wanted names may now be accommodated. The charity worker in question braved the bitterest day of the winter to make it possible for the Good Fellows to have the names of some tiny tots for whom they will play Santa Claus. She never quit once she started, not even for the noonday meal. She worked on it continually from early morning until mid-afternoon.

From indications now, the number of children to be cared for by the Good Fellows this year will be just as large as last year. Although the total number has not been listed because all of the charity workers have not completed their tasks, the per cent. from the districts covered reveals that there are just as many little folks indeed this year.

New members of the League may be used at any time. Of course, most of the old members may be depended upon, but recruits are always welcome. For the sake of those who are planning to join, it might not be amiss to repeat the method of organization.

First: Decide that you will help some child have a merry Christmas. That entitles you to membership in the League.

Second: Either call at the Daily Republican office or mail a letter, in care of this office, saying how many children you are willing to help.

Third: Receive, either personally or through the mail, a list of children, ages, sex and addresses appended.

Fourth: Wade into it. If it is your desire, none except you and kids will ever be the wiser.

Some little folks who are fortunate enough to feel certain that Santa Claus will slide down their chimney, today contributed twenty-five cents to the Good Fellows League fund. Charles Edwin Colter sent in a dime and Bertha Martin, Walter Martin and Hugh Martin, all children of one family, contributed a nickel each.

DIVORCE GRANTED

Judge Megee today granted Mrs. Pearl Short a divorce from Orbie Short. Mrs. Short was also given the custody of their one child, a daughter thirteen years old. The evidence in the case was heard yesterday and taken under advisement by the court. The decree is to be entered upon payment of the costs.

LOOK FORWARD TO GALA TIME

Elks Anticipate Large Attendance at First Public Reception to be Held Thursday.

INVITATIONS TO LODGES

In the Evening Elks and Their Immediate Families Will Enjoy Special Programme.

The Elks are going to see that every person who attends the big reception to be given at the Elks home Thursday afternoon between the hours of two and five is made welcome. The reception committee will be pleased to see a large crowd present. The committees who have been in charge of the preparation for the event having finished their plans and are expecting to show everyone who comes a fine time.

The evening also, will be a gala occasion, for at that time members of the Elks lodge and their immediate families will enjoy dancing, various games, a luncheon and other refreshments. It is the first of a series of social gatherings which are being arranged by the entertainment committee of the lodge for the winter season. Every Elk is expected to be present.

The members of all the fraternal organizations have been invited and the following letter has been sent the secretary of each lodge:

"The Elks Lodge of Rushville cordially extends an invitation to all members (name of lodge) of this city as well as their families to attend a public reception to be given at their home on next Thursday, December 17th, during the hours from two to five o'clock and requests you to invite as many members of your lodge as is possible to see. We will expect to see a large number present from your organization in spirit of good fellowship, we will do everything possible to make you welcome and feel that it is good to be with us. We will try and give you good entertainment, which will help some and sincerely hope that all will have a good time.

"With our very best regards for your lodge, and wishing each and every member a happy and prosperous New Year, we remain,

Your respectfully,
THE ELKS LODGE."

MAKES A PEACE PROPOSAL

Austria Said to be Confering With Russia on Terms.

(By United Press.)

Berne, Switzerland, Dec. 15.—Austria has made a tentative peace proposal to Russia but exchanges between the two governments in which Russia made known the terms that would be demanded were without results, Swiss newspapers reported today.

WAITING FOR THE DRESDEN

Two British Cruisers Ready to Complete German Annihilation.

(By United Press.)

Buenos Ayres, Dec. 15.—Two British cruisers are today reported in the Straits of Magellan where they are waiting for the German cruiser Dresden, the sole survivor of the squadron of Admiral Von Spee, which engaged the British fleet off the Falkland islands.

GAS EXPLODES IN STOVE

Mrs. Ann Bowles Painfully Injured at Milroy Today.

Mrs. Ann Bowles of Milroy was injured painfully, but not seriously, this morning when gas which had accumulated in a stove at the home of Harmony Parsons exploded when she went to light it. The explosion tore the stove to pieces and the flying pieces hit Mrs. Bowles. Mrs. Bowles makes her home at the Parsons residence. She did not know the gas had escaped into the stove and the explosion resulted when the match was applied. That Mrs. Bowles was not injured worse than she was is considered remarkable.

LEE GOES BEFORE GRAND JURY TODAY

Negro Accused of Killing Joseph Clevenger Gives His Testimony as the Second Witness.

INVESTIGATION NEAR END

The grand jury convened again this morning at ten-thirty o'clock and immediately started work on the Clevenger case. John Lee, colored, held to the grand jury without bond for the killing of Clevenger, was brought to the grand jury room by Sheriff Cavitt. He was the second witness, Blain Wilson, living north of the city, being the first. It was at Wilson's home that the negro stopped for something eat on the Monday that he was caught. It was believed his testimony was of little importance.

With the examination of Lee, it is believed that the grand jury has about completed the investigation in this case. Lee was before the grand jury for over an hour. Lee was in his usual good humor when brought to the court house by the sheriff. He talked freely while in the corridor awaiting his turn before the grand jury. He calls the sheriff the "boss" and jokingly told of trading hats with the "boss." With the examination of Lee out of the way a report from the grand jury on this case is expected soon.

Turkish Official Bulletin Today Tells of Firing of Batum, Russian Port, December 10

50,000 RUSSIANS REVOLT

Berlin, (By Wireless), Dec. 15.—A Turkish official bulletin made public here by the war office asserts that the large cruiser Sultan Jawas Selim on December 10, bombarded Batum, setting fire to the city and escaping despite heavy gun fire from the Russian land batteries.

Dispatches from Constantinople also carry an authoritative report that in the Caucasus 50,000 armed Russians, all Mohammedans, joined with other Moslems and decided to fight against Russia.

A Turkish cruiser, formerly the warship Breslau, also bombarded Sebastopol, the statement today asserts.

DETERMINES ON DEFINITE PLAN

Cabinet Today Sends Instructions to General Bliss Concerning Mexican Bullets.

TO BE MADE PUBLIC LATER

Commander Earlier in Day Reports Drastic Steps Along Border Are Very Necessary.

(By United Press.)

Washington, Dec. 15.—A definite and decisive plan of action to stop Mexican bullets flying over the United States border was decided on at today's cabinet meeting. Orders were telegraphed General Bliss, commanding the border troops there by Secretary Garrison, who will make them public later this afternoon after they reach Bliss.

That the policy adopted by the president and his cabinet will not entail any clash between United States and Mexican forces was stated emphatically by cabinet officers after their meeting.

It is understood that an ultimatum, terse and forceful, will be sent the warring Mexican generals Hill and Noytorena. It will be so couched as to insure obedience. The warning will indicate that the United States has reached the height of its patience and will not longer tolerate firing across the line.

Only adoption of decisive measure will end the shooting across the border at Naco, Ariz. This is the substance of a report received today from General Bliss, on duty there, transmitted to the war department.

The state department has been so informed that up to the present it has declined to issue the order which will turn the American artillery against the Mexican trenches. Secretary Bryan is still endeavoring to force Provisional President Guterriez to order the withdrawal of the Noytorena forces from their position facing Naco.

Officials here are unable to understand the delay in the delivery of the messages, copies of which have passed through American telegraph lines to Naco. In the meantime intermittent firing continues.

The general belief was that President Wilson would wait at least another day, perhaps discussing the subject with his Cabinet today, and then if the demands of the United States were not complied with, the

Christmas Problems

"If I only knew what to give him" is a continual daily lamentation.

Surely no harder problem of gift-giving confronts the average woman than that of choosing a suitable gift for a man.

Canes, stick-pins and neckties; handkerchiefs, cuff-buttons and gloves; socks, pocketbooks and fountain pens are good, but they have been given with such frequency that one sometimes longs for something new.

The merchants who are using the advertising columns of The Daily Republican are bending their energies toward the display of new wares for their Christmas trade.

A careful study of our advertising columns and a visit to the shops will convince the hurried and worried that "something different" and "something new" is to be found.

Only 10 days to Christmas—Why not buy his present today?

CLEVELAND WANTS THREE CENT LIGHT

With Three Cent Car Fares City is
Now After Cheaper Electricity
Gives Data.

MAY APPEAL HIGHER COURT

(By United Press.)

Columbus, O., Dec. 15.—Cleveland, the city that fought for and obtained three cent street car fares, today opened its fight here before the state utilities commission for three cent electric light.

The commission heard arguments by attorneys for the city against the appeal of the Cleveland Electric Illuminating company to overrule an ordinance setting three cents per kilowatt hour as the maximum price for electricity in Cleveland, Council for the company also was present.

The city presented data to show that the Cleveland municipal light plant has been furnishing three cent light at a profit for more than a year. It is the contention of the illuminating company that these figures are in accurate, and that their own figures show three cent light at present is a practical impossibility.

The next step in the fight for either side is expected to be an appeal from the ruling of the utilities commission to the state supreme court. Should the city win its case officials declare it will lead to the purchase of the privately owned plant by the city.

NO BREAK IN THE CABINET

Wilson Says He Can Settle Controversy Over Goethals' Request.

(By United Press.)

Washington, Dec. 15.—President Wilson today gave assurance that there would be no break between his cabinet members over the request of Col. Goethals for destroyers to maintain neutrality of the canal zone. Secretary of War Garrison has endorsed the request and Secretaries Daniels and Bryan are reputed to oppose sending the swift sailing "wasps." The president explained he considers himself the clearing house for any jurisdictional dispute that may arise within the cabinet and expects to be able to settle the present question without any friction.

BELGRADE IS RE-ENTERED

Servian Army Drives Austrian Army Capital, Reported Today.

Nish, Servia, Dec. 15.—The Servian army has re-entered Belgrade in triumph. The Austrians who occupied the city for only twelve days fled across the Danube and Save rivers in great disorder, clearing Servian territory of the enemy except at two points.

An official statement issued here today formally announced the re-occupation of the capital by the hosts of King Peter.

Local News

A marriage license was issued yesterday afternoon to Stanley M. Keller and Mary V. Stevens.

A quiet title and partition suit has been filed by John C. Folger, Rafas Folger and Homer Folger against Emerson E. Barnard.

Mrs. M. E. Coyne has been removed to her home in Cottage Avenue from the sanatorium where she recently underwent an operation. She is greatly improved.

Word has been received here that Heber H. Allen, formerly of this city, has been in Los Angeles, Cal., for some time and that he has been ill but is much improved now. He has not decided on a permanent residence.

Mrs. C. A. Sparks, wife of the captain of the Salvation Army corps here, will be operated on tomorrow at the Long hospital in Indianapolis for tuberculosis of the bone, according to word received by Captain Sparks today. She was taken to the hospital several days ago.

TWO GAMES WEDNESDAY

Two basketball games are scheduled for Wednesday afternoon at four o'clock in the Graham gym. The first grade team of the Graham school will take on the second high school team of the Morristown school in the main event of the afternoon. The second grade team will play one of the high school teams in the curtain raiser.

SELECT LOCATION

Judge Megee and A. J. Ross, who will form a law partnership the first of the year, will open their office in the Miller law building it was announced today. They will occupy the room at present used by the Robbins and Nipp insurance agency. Robbins and Nipp will probably move into the rooms over the Arcade pool room.

ONLY ONE BIDDER MEETS CONDITIONS

Levy Brothers and Company, Bidding For County Supplies and Printing, Files a Bond.

CONTRACT NOT LET AT THREE

It was expected that the county commissioners would award the contract for county printing and court house supplies to Levy Brothers and Company of Indianapolis. The bids were opened this afternoon and at a late hour the commissioners were still considering them. It was believed that the bid of Levy Brothers was the only one that would stand under the law as the bonds of the other two bidders were defective.

The T. R. Washburn Printing company of Terre Haute submitted a bid but there was no bond. The bond under the law must be for \$2,000. The other bidder, Bartel and Rohe, of Richmond, submitted a blank bid for the commissioner to fill out but this was not legal. Under the circumstances the commissioners could consider only the bid of Levy Brothers. Bartel and Rohe just bid on class 3, consisting of pencils and rubber stamps. The bid of Levy Brothers was about the same as last year under which they were given the contract.

Amusements

The Princess will show a three reel feature "The Long Way" for the program tonight. Mabel Trunnell, Mariam Nesbit and Marc McDermott are featured. It is said to be a wonderful picture telling a beautiful drama. Wednesday night and matinee the next installment of "The Million Dollar Mystery" will be shown.

The Gem offers a two reel Victor drama "The Girl Who Won" for the first picture tonight. Florence Lawrence and Matt Moore are featured. The story is a novel one and deals with platonic love. The other is a comedy "The Boob's Legacy." Bob Leonard is featured in this one. Tomorrow night the two reel Bison western drama "The Phantom Light" will be shown. William Clifford and an all-star cast is shown.

The Mystic will show a two reel feature "The Dancer" for the first picture tonight. Vera Mercier, one of the leading dancers of the country is featured and it is said to be a fine drama. The other is an Essanay drama entitled "The Verdict." Beverly Bayne is featured. Tomorrow night the two reel Vitagraph drama "The Rose and the Thorn" will be shown.

According to news received here, Nevil Phelps, formerly of this city, who was married recently, is now in Phoenix, Arizona, and is enjoying the climate very much. He suffered a severe illness last summer but regained his health.

Many Ways for Spending Pennies Realized from the Red Cross Seals

(Special to the Daily Republican.)

Madison, Ind., Dec. 15.—A "sob artist" on a metropolitan newspaper could weave a "human interest" story here that would bring tears to the eyes of thousands and might bring a deluge of gold and silver money that would make the family in question independent for years to come. The incident could well be used as an indication that there are still many undiscovered ways for the expenditure of pennies derived through the sale of Red Cross Seals.

The Emma Scott Circle of King's Daughters is the local organization in charge of the Red Cross Seal campaign in Jefferson county. Here is a case of tuberculosis which came directly to the notice of the members of the Circle, and the family is now being helped with Red Cross Seal funds obtained in former years.

There is a real newspaper flavor in this story of common ordinary everyday life. The heroine could well be used as the central figure in a drama of gripping interest. She is a girl of nineteen self-sacrificing winters and as many summers, most of which were filled with other things than gladness.

Working as a compositor in a small newspaper office here, she fell a victim to tuberculosis THROUGH SOMEONE'S CARELESSNESS. She was the sole breadwinner for a little family group, which consisted of herself and her grandparents. Her fellow workers noticed that her cough became chronic and that day by day she grew thinner and thinner, but she never confided her troubles to anyone. She just "kept on the job". Through an unknown channel the King's Daughter's learned of the case and investigation proved that the girl slept at night on a pallet laid on three chairs so that she could be near the two old people, whom she was supporting.

Physicians pronounced her case hopeless, and she was refused admittance to the state tuberculosis hospital at Rockville for this reason. She knew little about the danger of spreading the disease to others until recently, but she is being cared for through Red Cross Seal funds and is taking the recognized precautions to prevent her infection from spreading to others.

Investigation Showed Girls Omit Meals When they Need Clothes

BY CARLTON TEN EYCK.
(Written for United Press.)

New York, Dec. 15.—"When I have to pay for a pair of shoes or something like that, I don't buy meat for two weeks at a time."

This little sentence from the testimony of a girl clerk in a New York Department store is full of meaning as the reflection of "how the other half lives." It was told to the New York State Factory Investigating Commission and was of many eye-opening statements, statements which brought home to many of Manhattan's citizens the fact that all the suffering in the world is not in Europe today.

"You see yourself that the only thing left me to economize on is food," said another clerk, "I never eat any breakfast at all. By experience I found that was the easiest meal to do without."

One young woman of 31 years spent her vacations, one week every year, in her skylight bedroom—just one of those rooms which O'Henry describes—resting up after a year's grind. But the pathetic note was added by the young woman when she said that she hurried down to the store every morning during her "vacation" to see that some one else had not been given her job!

There was one girl who found ingenious way to buy new suits of clothes for herself which she did by the process of elimination. She eliminated one, and sometimes two, meals a day. When it was not necessary to buy clothes she paid ten cents for her breakfast, 15 cents for her lunch and then 25 cents for a real banquet in the evening.

The testimony of two Buffalo women was interesting. One of them said that she lived two or three days on a little cold ham and a can of beans. Another, a young widow living in a questionable district, works for a wage of \$6 a week clerking and has a little room in a lodging house not far from Buffalo's red light district. The lights are not yet red where she lives but she said "the lights are getting pinker every year."

In a few cases the Salamander type of girl, the type made famous by a novelist of the day, exists among the shop-girls. But it is the Salamander who has gentleman friends not for the good time and the expensive luxuries but for the real necessities.

Said one of them "Gee! I feel sorry for the girls who haven't got a steady," she said, "Why! if I had to buy all my meals I'd never get along. Sunday dinner I always count on him for."

Well, the substance of the testimony was the State Factory Commission through its agents, Miss Esther Packard, Miss Van Kleeck,

Roswell Skeel, Jr., Mrs. Marie Qrenstein and others; showed that out of a total of 104,000 wage earners investigated by the Commission one-eighth earn less than \$5 a week; one third less than \$7; two-thirds receive \$10 or less and only one-sixth make \$15 or more. Half of the wage earners get less than \$8 a week.

It does not make pleasant reading, this thought that a girl "omits" a meal or two a day to buy herself a coat to keep off the cold weather. But many of them do it.

Society News

A club supper, followed by a dance, will be given in the Social club rooms this evening.

Miss Mary Stevens of Carthage and Stanley Kellar of Brewersville, Ind., were married this morning by Rev. C. M. Yocum at the Main Street Christian parsonage. Mr. and Mrs. Kellar left this morning to reside in Anderson.

Opening Not Psychological.

We have been told in bulletins from the white house that the business depression in the United States was purely psychological. By the same token, we presume, the opening of all the steel and tin plate mills that are going the rounds, are psychological.

A dispatch from Elwood states that word was received Monday that the hot mills department of the American Tin Plate works would begin work next Monday, giving employment to 1,800 persons. We hope the opening will not be as psychological as was the closing.

From Pennsylvania comes the news of the resumption of business in the steel industry. Western Pennsylvania was particularly active with signs of an industrial revival, the dispatches say. The activity was noticeable not only in steel but in the mining industry as well.

Continuing, the dispatches say of the situation in Pennsylvania:

"Newcastle, McKeesport, Sharon and Farrell were centers of renewed activity in steel, while in the Monongahela valley hundreds of miners returned to work, and there were prospects of a merry Christmas. In the little town of Bimola four hundred miners went back to work after a long period of idleness.

"In McKeesport the National Tile Company's four rolling mills resumed operations, while the other mills of the same company in this city and vicinity opened the week with increased forces. Large orders of pipe promised a good and steady run. In other mills men who had been on half time went on five or five and a half day time.

"Ten mills of the American Sheet and Tin Plate Company resumed today at Newcastle and Farrell, putting twenty-five of the company's thirty

mills at Newcastle and fifteen of its thirty in Farrell in operation. At Sharon the steel hoop mill resumed full time operations today after months of slackness. The Carnegie Steel Company reopened one of its long-idle open hearth furnaces at Farrell today, increasing employment for a number of men.

It is much to be desired that these dispatches are all true. If they are as psychological as were the tales of the closing of the same places, they have little foundation in fact. But let us all hope for the best, that some of the hundreds of thousands of men who have been thrown out of employment by the pernicious legislation of the Democratic party get back into steady work.

But when we disregard the psychological feature of the business depression, one is wont to wonder how all of these factories, mills and mines can be reopening if they never were closed. It will be recalled that many of them closed up shop during the last campaign. Democratic campaign orators hooted at the charges of Republicans that Democratic legislation had been responsible. They even went further. They said there was no business depression. Of course, it is plain now that their utterances were for campaign consumption alone.

There were folks today who would like to punch the face of the fellow who sits around the hot coal burner and talks about the seasons changing, or "that there are never any winters like we used to have."

OTHER MAN GOT 4 MONTHS

(By United Press.)

Marion, Ind., Dec. 15.—Adolph Countout with the aid of a mirror viewed the right side of his head for a few minutes today for the first time in a week. It presented a strikingly altered appearance. The ear was missing. It was a sad and peculiar sight.

In the county jail here, entering on the down stretch of a four month, five day jail sentence, is the man with an abnormal appetite who a week ago bit off Adolph's ear. He also was far from pleased with the situation, though he had escaped the clutch of the redent bad weather.

Countout was counted out after he had won \$4 from Walter Gillis, a Lithuanian from the west. Gillis like Shylock, desired a pound of flesh, and he began at the nearest projection. He and Countout had been friends.

**Health--How to Preserve It
Disease--How to Prevent It**

Prepared for the United Press by Dr. J. N. Hurty

State Health Commissioner

(Dr. Hurty will answer questions on prevention of disease, hygiene and sanitation. Questions requiring a personal answer cannot be considered. To avoid delay, address all questions direct to the UNITED PRESS ASSOCIATIONS, 36½ West Washington St., Indianapolis. Questions may be sent to THE DAILY REPUBLICAN if preferred.)

J. B. Newcastle, incloses two patent medicine ads and writes—"Please answer as to whether inclosed ads are worthless, injurious, Etc." (These ads are entitled "Gray Hair Makes Anyone Look Older" "Acid Mouth--Loose Teeth--Corrected" and "How You May Throw Away Your Glasses.")

I believe the advertisements you sent me are all three of them humbugs. Indeed I know they are. Pay no attention to such things. To one which is headed—"How you may throw away your glasses" tells you to get a bottle of "optona." There is no such drug. This is a mixture of drugs, probably a little salt and something else which they will sell to you at a big price. Don't fool with advertising quacks nor take medicines which are advertised. Always go to a good doctor whom you can trust and who has a good reputation.

W. Huntington, Writes—"Are wheat bran and hominy hearts especially good food for those who have paralysis or weak nerves? Name good foods for such ailments. I note that Dr. A. J. Bellows in his book "Physiology of Eating" taught in Classifications of foods, that soluble phosphates supply brain and

nerves and give vital power to muscle and mind. Soluble phosphates of grain "are of most found in the germ"—much of the germ goes off with the bran in making white flour."

Reply—The best cereal food you can eat is a mixture of cereals. Make a mixture of one lb. rolled oats, 1 lb. whole wheat flour, 1 lb. rye flour, 1 lb. coarse corn meal, 1 lb. bran. Mix these all together and cook and use the same as you would oat meal. You may mix this compound with an equal weight of wheat flour and use it for batter cakes, gems and cookies. Of course you must eat all kinds of fruits and vegetables with this cereal food. Eat sparingly of meat. Drink milk, especially buttermilk. Don't take medicines for your trouble except under the advice of a competent physician.

S. T. L. writes—"I read your health articles and answers with the greatest interest and enjoy them very much for they are so instructive. Please state as soon as possible the exact remedy for a breaking out on the forehead."

Reply—I must know the cause of "breaking-out" on your forehead before I can prescribe a remedy. "Breaking outs" are very numerous and proceed from many different causes. You should consult a skilled dermatologist.

threat of the Washington government to return with artillery fire any firing into American territory would be carried out. As yet, however, no further orders have been sent to Brig. Gen. Tasker H. Bliss, in charge of the situation at Naco, Ariz.

Administration officials attached no importance to the statement of Carranza that if the United States fired into Mexican territory it would be "an act of hostility." Some officials pointed out that the American government was inclined to regard shots from Mexico into the United States in the same aspect.

In view of the urgent tone of the message from provisional President Gutierrez to Gen. Maytorena, officials believed the latter would remove his troops and avoid complications. Should one of the two factions heed the warning of the United States, the need for defensive fire would, of course, be removed.

Secretary Bryan had received no further word of the circumstances surrounding the killing of the two Americans at Cananea, but as soon as the responsibility for the occurrence is determined, it is understood, he will make demand for punishment of the guilty parties. The reports thus far received say they were killed by irresponsible bandits.

Admiral Howard, commanding the American squadron on the west coast of Mexico, has learned through the cruiser Denver, at Ensenada, that a Carranza force of 1,200 under Gen. Iturbe has taken LaPaz, Lower California, and that quiet now prevails there.

**Controversy Regarding Vaccination
Reaches Muncie and Physicians
Vote in Favor of it**

SERIOUS EPIDEMIC THERE

(By United Press.)

Muncie, Ind., Dec. 15.—With smallpox spreading over the state, there promises to be an epidemic almost as sweeping in the controversy over the virtues or evils of vaccination. This controversy which started in LaPorte when Dr. J. N. Hurty of the state board of health issued through the United Press a bulletin advocating vaccination, has spread to this city. Dr. Hurty's articles on smallpox and vaccination were printed by the Press here, and immediately the physicians took it up, pro and con. So far no local light has issued a challenge to the state commissioner, as was done in LaPorte.

Dr. N. D. Berry, secretary of the city board of health, has called for the opinion of most of the medical fraternity here. He received the overwhelming verdict of thirty for and one against vaccination. Those "for" however, varied in their emphasis from one who said: "A man who does not believe in vaccination is dangerous to the public health," to the doctor who said "I favor it if asked for by the patient. Otherwise, I advise medicine taken internally as a preventative."

Notwithstanding this verdict, it is known that a large number of laymen here are strongly opposed to vaccination. And this county is right on the edge of the most serious smallpox epidemic in the state.

INDIANA BEING MADE THE "GOAT"

Chicago Rids City of Unemployed by
Announcing Great Prosperity in
Northern Cities.

LOCAL MEN ARE USED FIRST

Burden is Shifted With Result That
Thousands Are Out of Work—
\$40,000 Needed.

(By United Press.)

Hamond, Ind., Dec. 15.—Reports from reliable sources in LaPorte, Gary, Hammond and other of the larger northern Indiana cities near Chicago indicate that Indiana is being "made the goat" by Chicago, which apparently is endeavoring through its newspapers to unload unemployed men in Indiana cities.

The following plan has been worked, seemingly with accord to a pre-arranged plan agreed to be Chicago arranged plan agreed to be Chicago city, announce the arrival of tremendous prosperity there, the opening of all factories and the employment of thousands of men. The unemployed immediately take the cue and leave for the Indiana city, and Chicago is rid of them. When they arrive they find that though some factory has resumed operations, it is taking on only local men, and in much smaller numbers than Chicago papers would lead one to believe.

The result is that the burden of the unemployed is shifted from Chicago to some extent. The unmarried men generally stay in the new city. At a recent meeting of South Bend city officials, heads of manufacturing institutions, church and charity workers, it was estimated that \$40,000 would be needed this winter to care for the unemployed poor. A week was devoted to a campaign and \$11,000 was collected. One man who helped collect saw so much suffering that he gave away \$10 of his own and returned without a subscription. The Presbyterian soup kitchen in South Bend is feeding many each day.

Scores of Gary stores have been closed and other business men are facing bankruptcy. Ten thousand Chicago laborers flocked into Gary recently when it was announced that the steel mills had reopened.

PROMOTERS ARE LIVING IN HOPE

California Boxing Fraternity Believe Some Loop Hole in Law
Will be Found.

TO GO BEFORE LEGISLATURE

Dope Was all Upset in National League According to Official Averages of Players.

BY HAL SHERIDAN.
(Written for United Press.)

New York, Dec. 15.—The anti-boxing statute of California is to go into effect tomorrow, or within a few days. Contrary to general belief, however, the promoters and boxers haven't begun to cry as yet. They are waiting until the legislature meets in January when they will take the law into the courts and tinker about to find some constitutional loophole.

Promoters McCarey and Coffroth together with a whole flock of promoters of minor prominence are said to have made up a big purse for this now nearly completed to have the new law declared unconstitutional.

A contemporary remark, to-wit: "If cash wagers are permitted on New York tracks next year it is freely predicted that racing will interest many persons who have been hke-warm ever since the anti-book-making laws were passed at Albany." It certainly would. There would be twenty times as many cashiers, bookkeepers and collectors betting money belonging to their employers under the cash betting system.

Another look at those official National League averages and percentages again proves that Old Grandfather Dope is rapidly losing caste even in baseball. The World's Champion Braves stole 100 less bases during the season than the Giants, and seventy less than the despised, downbroken and denatured Cincinnati. Peering at the same figures again, you'll find that the Brooklyn led the league in pounding out base hits, but according to the most authentic information we can glean, the Dodgers seldom threatened to challenge the Braves in the flash of the latter to the pennant.

BIG CITIES WOULD NOT BE BOMBARDED

Comander of Submarine Fleet Gives Opinions of Probable Results in Case of War.

BEFORE NAVAL COMMITTEE

(By United Press.)
Washington, Dec. 15.—America's big coast would not be bombarded by an alien fleet in event of war on this nation. This was the impression Commander Stirling of the Atlantic submarine fleet today gave the house naval committee. He counseled against construction of small submarines, saying he did not believe in the "defense idea" for these vessels.
"I can't conceive why a fleet should come to this coast," he said. "I don't think a fleet would bombard even if submarines were not there. For in order to bombard cities it would be necessary to annihilate our fleet."
This feat, he intimated, was not likely to occur, but if the fleet were wiped out an enemy would send out its auxiliaries to watch our submarines, he said. In course of time they would force the submarines to come to the surface by reason of need to re-charge their batteries.

GERMAN ROUT COMPLETE.

(By United Press.)
Petrograd, Dec. 15.—So complete was the rout of the German army which invaded northern Poland from Mlawa that the force is now cleared from Russian territory and this plan of movement against Warsaw has apparently been abandoned, according to reports here today.

NEW LOW MARK SET HERE TODAY

Continued from Page 1.

their other fall work done. They are ready for winter. They are glad the snow is here, for it protects the wheat. They would not object to two or three inches more and will not kick if it stays on all winter.

Country roads were pretty well covered with snow and rural mail carriers made slow trips. However, there were no bad drifts and the only difficulty was in keeping in the tread. This made slow driving necessary.

There is enough snow on most of the roads to furnish sleighing, but that sort of thing seems to have gone out of style. One or two sleighs have been out. A few years back, with the present amount of snow, the streets would have been alive with sleighs and the air musical with the jingle of bells. There has not been a sleigh or a strand of bells sold in Rushville this winter. In fact there has not been one sold here for several winters. The market for sleighs, bells and bobsleds played out years ago. Local hardware men and vehicle dealers do not know what it is any more to order such things. The automobile has taken their place somewhat, but the fact that we do not often have snows that stay on more than a few days has had something to do in bringing about the change.

SNOW ORDINANCE COMES UP TONIGHT

Likely That it Will be Passed Because Many Have Commended City Council For Suggestion.

WHAT IT CONTEMPLATES

The city council will meet in regular session tonight. There is nothing of great importance to come before the meeting but it is expected that the snow ordinance will be advanced to second and third readings and final passage. There has been no complaint against the ordinance although some seem to misunderstand it. Some seem to think that the city would do away with the snow plow but this is not the case as the city proposed to operate the plow as usual when there is a heavy snow. The idea of the ordinance is to compel the people to clean the walks after the plow has passed.

Others seem to think that the ordinance compels the property owners to clean the walks. This is wrong as the ordinance provides that either the property owners or the tenants shall do the work. The councilmen have been commended for the proposed ordinance and its passage has been urged.

OYSTER SUPPER.

Bernice Encampment, No. 12 will serve oysters at their regular meeting Friday evening, Dec. 18. All members and sojourning Patriarchs are invited and urged to be present. It is also due night.

KEEPS MANY PEOPLE AWAY

Weather Responsible For Poor Attendance at Entertainment.

The entertainment given last night at the Main Street Christian church by Clyde Poulter, "That Little Man," under the auspices of the Young Men's Circle and the Loyal Daughters of the Christian Sunday school, was poorly attended on account of the extremely cold weather. The two classes lost money on the venture. The entertainment was high class, however, and just as good as expectations set up by notices concerning Mr. Poulter. Those who saw him declare that he is a very unusual man.

The joy in receiving lies not so much in the fact that the gift is extremely practical—but rather that it is what you want and have wanted for a long time. Give the boy a train, even if the spring is liable to break tomorrow, or a pair of boots, with the probability that they will be outgrown in three months, if they are what he wants. Give your wife a dainty waist, altho the style may change overnight, if that is what she has been asking you for.

...Greetings...

This store, as in past, is presenting what the old and the young—men, women and children want. Immediately upon entering the store, you are put upon the defensive, for each gift article is so different, so attractive, so appealing and so moderately priced that choosing is more a matter of concentration than discrimination. Our three floors are filled with specials, everyone of which will make you wonder how we can offer them for the price.

PROBATION LAW IS VALUABLE

Report Board of Charities Declares This Feature of Penal System Should be Encouraged

MUCH GOOD HAS RESULTED

Has Been in Force Seven Years With Total of 1,458 Suspended Sentences in State

(By United Press.)

Indianapolis, Ind., Dec. 15.—The forthcoming report of the board of state charities declares in a section made public today that the adult probation law is one of the most valuable features of Indiana's penal system. It is based on the assumption that it is possible to reclaim many offenders against the law without fixing upon them the stigma of prison life. Judges of circuit and criminal courts are authorized by this law to suspend the sentence of persons convicted of felony of misdemeanor, except for the crimes of murder, arson, burglary, rape, treason and kidnapping.

"So far as this law applies to misdemeanants, there are no available statistics of results," says the report "When the sentence is to one of the state prisons or the reformatory, however, probationed offender is thereafter in the legal custody and control of the institution to which he would have been sent, and is subject to the rules and regulations governing paroled prisoners. Of this class the institutions named keep accurate records.

"The law has now been in force seven and one half years. Its results so far as known, are seen in the following table. In the time indicated sentence was suspended in the case of 1,458 men and women, 480 of whom otherwise would have had to go to the State Prison, 942 to the reformatory, and 36 to the Woman's Prison. The law provides that if these persons on probation violate their parole, the original sentence shall be carried out. This was done in the case of 145 prisoners, while 298 others who were delinquent had not been apprehended up to the close of the fiscal year. These 443 delinquents constituted 30.38 per cent of the whole number placed on probation."

ANNUAL WEIGHING OF MAIL COMES NEXT

Advance Notices From Government Are Received at Railway Offices Announcing Duty

THE BASIS FOR CARRIERS PAY

Advance notices have been received at the railway office announcing the regular quadrennial weighing of mails for the fixing of rates or railway mail pay. The weighing is to begin on January 1, after all of the heavy mail is carried and will last between thirty and one hundred and five work days. Whether the railroads will receive an

increase in their rates for the carrying of mail will be determined after the weighing.

Since the parcel post was inaugurated the railroads have been seeking an increase in the rates for carrying mail, as the government has been taking in nearly \$30,000,000 additional revenues and the railroads have received no compensation for the carrying of the mails. Railroad officials say the only fair way to base the charge for carrying the mails is on either the car mile basis or the space rate basis.

Weighing the mails is unfair, as a decrease in the amount of mail carried makes the government the loser, while an increase makes the railroads the loser. The weighing of mails is carried on at an expense of \$400,000 to the government. A settlement of the rate on the space basis would do away with this unnecessary expense and would be fair to both sides, according to the argument of those in position to know. The extent of time that the weighing will be carried on has not been announced.

GOVERNORS WILL MEET JANUARY 11

Ralston Sets This Date in Inviting Executives of Six States to Come To Chattanooga

TO DISCUSS "DIXIE HIGHWAY"

(By United Press.)

Indianapolis, Dec. 15.—Governor Ralston today named January 11 as the date of the meeting of the governor of the six states for the purpose of furthering the "Dixie Highway" project. He wrote to the governors of Tennessee, Illinois, Kentucky, Georgia and Florida asking them to attend this meeting to be held at Chattanooga.

The "Dixie Highway" as proposed would extend from Chicago to Jacksonville, Fla. Certain roads already make a complete and very direct highway. The aim of the conference will be to devise ways and means so that these roads may be improved.

Even during the past week with its very unfavorable weather, several auto parties have passed through Indianapolis enroute to Jacksonville over these roads that are at present very disagreeable. In Indiana the proposed road would pass through the following cities: South Bend, Valparaiso, Logansport, Peru, Kokomo, Noblesville, Indianapolis, Columbus, Seymour, Scottsburg, Salem, and New Albany.

The Best Guarantee You Can Get

with any article is the Unwritten Guarantee. The guarantee that years of satisfactory service has made. If you want a flowery guarantee written with gilded ink on fine bond paper, buy a fraud. If is necessary for the fraud to guarantee you a lot of richly painted stuff in order to get your business. Do you want a guarantee with a Stetson Hat, A Singer Sewing Machine or a Packard Automobile? No, you don't. Why? Because you know these articles are right and always have been, and if you were to buy one of these articles that was wrong it would be made right without any argument. Nice satisfactory way to do business ain't it. Do you know of any one with one of our buggies that is not satisfied, that thinks he got a dirty deal, that thinks he paid for something he didn't get, or thinks we are rough to do business with? If you know a man of this kind we want to see him because every buggy we sell has to be satisfactory. That is why your neighbors buy their buggies from us. They know—they have had the experience and realize the fact that buying their buggies of us means satisfaction. We have a nice line of STORM BUGGIES for you to make a selection from and want you to see them before you buy, then if you buy one of our buggies you will be a satisfied customer the rest of your life. Watch our satisfied customers make our Buggy business grow.

IF BACK HURTS BEGIN ON SALTS

Flush the Kidneys at once when Back-
ache or Bladder bothers—Meat
forms uric acid.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which clogs the kidney pores so they sluggishly filter or strain only part of the waste and poisons from the blood, then you get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, constipation, dizziness, sleeplessness, bladder disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended with a sensation of scalding, get about four ounces of Jad Salts from any reliable pharmacy and take a tablespoonful in glass of water before breakfast for a few days and your kidneys will then act ne. This famous salts is made from the acid of grapes and lemon juice, combined with lithia and has been used for generations to flush clogged kidneys and stimulate them to activity, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which all regular meat eaters should take now and then to keep the kidneys clean and the blood pure, thereby avoiding serious kidney complications.

Modern United Germany

Is Made Up of Many Separate Governments and People by Many Different Teutonic Races.

By J. Feudner

The late Balkan war done much to make the average American more familiar with the geography of Europe and its diversity of peoples. The present European conflict is extending this knowledge still further. It is now better known that in a comparatively small area, comprising the various Balkan states, there are many different kinds of races, each with its own language, customs and manner of dress.

Perhaps it is not generally known that the German nation is composed of a great many Teutonic tribes who have retained, even to the present day, a great deal of their ancient dialects, customs and manner of dress. Some of the Germanic tribes or races have in the centuries past disappeared by being Romanized, and otherwise have been amalgamated with other nations.

The tribes of the various Teutonic, Germanic and Allemannic races still existing within the modern German empire are as follows. The northwestern part of Germany, the plains of the rivers Weser and Elbe, and the shores of the North Sea is peopled by the Friesians, Oldenburgers, Hanoverians and Westphalians.

East of the Elbe and in the plains of the Oder and Vistula, and along the shores of the Baltic Sea, live the Holsteins, Pommeranians, Old Prussians, Silesians, some Germanized

Poles and a remnant of a Slavic nation.

The northern portion of the Prussian Polish territory, to the east of the Vistula river is known as Cassubia, peopled by a Slavic tribe, but which is now outnumbered by Germans and Poles.

The province of Eastern Prussia has a mixed population of Germans, Wends, Slavs, Czechians, Moravians, Poles, Cassubians and Lithuanians.

To the south of the kingdom of Prussia are the Saxons.

The Thuringians who inhabit the northern slopes of the Thuringian forest and the country as far as the Harz mountains, are of the most purely Teutonic tribes of Germany.

The Hessians, descendants of the ancient Catti, inhabit the cold and mountainous country of Central Germany.

The Western or Rhenish Franconians are settled along the rivers Rhine, Main, Neckar and Moselle, in what is generally known as Rhenish Germany.

Southern Baden and the kingdom of Wurtemberg is peopled by the Swabians, descendants of the ancient Alemanni.

On the left bank of the Rhine, opposite Baden, live the Alsatians and to the north of them the German speaking people of Lorraine.

East of Wurtemberg, in the northern part of the kingdom of Bavaria, live the Eastern Franconians, in the central part the Bavarians, and in the extreme southern part of the Alpine Bavarians of the Tyrolese people.

To the east Bavaria is Austria, which up to the war of 1866, was always included in the map of Germany, and which contains quite a number of Teutonic tribes speaking the German language.

In this connection I wish to specially mention a little known tribe of people of Germany known as the "Wends." These people are a remnant of an ancient Slavic race that settled in a small district in Germany partly in Saxony and partly in Prussia and Saxe-Altenburg. They live apart from the surrounding people and have retained their ancient language. They differ from the other inhabitants in the customs and dress. Like most of their kinsmen they are fond of shining buttons, loose trousers and heavy boots. Their women wear close fitting black caps confining the tresses, long ribbons descending over their backs, vests with speckled sleeves and very short petticoats hardly reaching to the knees. According with an ancient custom property amongst them descends to the YOUNGEST son, and the older brothers often stay with him as his servants.

Most all the Wends, except some of the older people, now speak German besides their own tongue. Many Wends have translated their family names into German, and all those causes which lead to the extinction of an ancient language, are at work in the country of the Wends.

Here in Denver is a minister of a German church who is a Wend, and he is the first one of that peculiar

RUSHVILLE INDIANA

people I ever heard of in this country.

The English speaking people call the Teutonic races "Germans," the French call them, "Allemands" and the Slavic people call them "Swabians." The Germans themselves use neither of these three appellations as the name of their nation.

In 1886 there was a war between Prussia and Austria, the then two large powers within what was then known as Germany. The balance of the German states took sides, some with Prussia and some with Austria. Prussia was victorious and Austria was then excluded from Germany and Prussia annexed the kingdom of Hanover, the duchy of Hesse-Cassel, Nassau and the free city of Frankfurt.

After the war of 1866 Germany was composed of the following states, each with its own ruler, government, laws, money coinage, etc.: Kingdoms—Prussia, Bavaria, Saxony, Wurtemberg.

Grand Duchies—Baden, Hesse-Darmstadt, Mecklinburg-Schwerin, Mecklinburg-Strelitz, Saxe-Weimar, Oldenburg.

Duchies—Schwarzburg-Sondershausen, Schwarzburg-Rudolstadt, Waldeck, Reuss-Greiz, Reuss-Schleiz Schaumburg-Lippe, and Lippe.

Free Towns—Hamburg, Bremen and Luebeck. And at the close of the Franco-Prussian war the imperial territory of Alsace-Lorraine was added.

While the German language was spoken in these different states, from the Alps to the Baltic, yet there was no political unity recognized. It was on this account that Germany suffered devastation from the French in the 16th, 17th, and 18th centuries and portions of the German provinces were wrested from them.

The civil war of 1866 between the several German states naturally left considerable "soreness." It will be remembered that soreness existed for a good many years between the North and the South in the United States after the civil war.

In 1870, only four years after the German civil war, France declared war against Prussia (not Germany), but notwithstanding the existing soreness, all the German states arose as one united nation against the arch enemy of France. When the Germans were victorious in this war it was thought the psychological moment had arrived for a United Ger-

many, and hence, on January 18th, 1871, two weeks before the surrender of Paris, William I, king of Prussia, was proclaimed German emperor in the great hall of the palace of Versailles in France, on the initiative of the king of Bavaria.

That Bismarck, the great German statesman, who was then in the zenith of his power, also had a hand in the forming of the German empire, goes without saying.

It is since 1871 that Germany is politically united, and only since this comparatively modern period and for the first time since the German races existed, were they able to present a united front to their enemies.

North America was peopled by many Indian tribes, but they were fortunately scattered over a vast area. Had they been confined to as small an area as Germany—a little smaller than the state of Texas—and had they shown a united front when the white man appeared, it is very probable that the white man would never have gained a foothold within their territory.

Shortly after the outbreak of the present European war there was no postal communication between Germany and the United States, but lately letters and some papers are coming through.

Denver has a German population of about 26,000, and I hear of letters which have lately come through which describe the conditions, the sentiment and the feeling that exists among the German people at the present time. Every one of the letters tells of the unity and the patriotism that exists among the many German races, a unity which has not existed among them since the dawn of nations.

John L. Stoddard, the famous author-traveler, said: "Until I crossed the Tyrolese frontier from Switzerland, I had no idea of the amazing successes of the Teutonic forces, or of the wonderful spirit of universal brotherhood, love and devotion to the fatherland, which prevail from the Rhine to the Vistula and from the Danube to the Elbe."

Volunteering in Germany was unknown. Until the formation of the empire, the recruits to the army were drafted. Since then the Prussian system of universal military service was introduced throughout Germany. But since the outbreak of the present war, many letters re-

ceived here, report that many more men "volunteered" than could be used.

Harry Churchill told me just a few days ago that a German farmer's wife, from whom they get their butter and eggs, told of having received a letter lately from her brother, a reservist 45 years old, that he had not yet been called out, nor her nephew, a young man of 19 years; that many volunteers were presenting themselves for military duty to defend the fatherland.

Whatever the Russians, the French or the English may SAY, or the average American who reads the censored news may THINK, the German people themselves say this war was forced upon them and that they are fighting for their national existence, their institutions, their industries and their commerce. The German people blame Russia as the primary cause, but England as the principal instigator.

In proportion as England has perceived and not been ashamed of her increasing inefficiency, she also felt gnawing at her vitals, envy and hatred for the nation which was efficient, and which was pushing successfully her trade and commerce to those parts of the world, where England had been so long v-re-eminent, that she had come to look upon her trade supremacy as something given her by divine right.

Twenty years ago I visited my people in Germany. One day while traveling on the train I heard a man tell a fellow passenger that he had lately been in England. That England had passed a law to the effect that all goods brought into England must be marked where they were made. This law was especially designed against German goods which were flooding the English market and to induce the English people to "patronize home industry." Shortly after my return to the United States I began to see boxes, packages and goods marked "Made in Germany." Because German manufacturers could not tell where their goods would land ultimately, all goods were thus marked. Then I saw an article in a magazine which spoke of this law passed by England, and said it acted like a boomerang. It had the very opposite effect sought. And ever since that time the little phrase, "Made in Germany" acted upon the English the same as shaking a red rag in a bull's face.
